DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Rowe et al. 5,623,613.

See the abstract; figures; col. 2, line 51 to col. 4, line 19; col. 5, lines 10-51; and col. 7, lines 16-44.

In response to applicant's arguments, Rowe shows the menu and submenu extending along the border of a third display area 92 and connecting an element of the menu with a element of a submenu. Note col. 8, lines 38-67.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. Claims 1, 3-7, and 9-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ohkura et al. 5,737,029.

Ohkura et al. teaches use of a menu , submenu, orthogonal arrangement of the menu and submenu around a third display area; use in a receiver; electronic program guide; genre and subgenre, selecting submenu items in response to the selected menu item; and use of programming in the cpu to accomplish the method. See the abstract; figures; col. 1, line 50 to col. 2, line 5; col. 5, lines 38; and col. 9, line 38 on.

Ohkura however discloses that a menu item can be selected that causes the submenu to obscure the picture. Col. 10, lines 1-7. Ohkura however expressly teaches that this is a disadvantage and results in a unfavorable display.

It would have been obvious to one of ordinary skill in the art to modify Ohkura in view of this teaching and require that the display always occur outside the picture area to avoid this problem.

In response to applicant's arguments, Ohkura shows the use of a connection indicator in line form , see figures 16-21 for example. Note is also taken that the instant specification (page 2, lines 17-19) provides that the connection indicator can be in a form of a line or a dashed line which is met by the lines shown in Ohkura connecting the categories and channels.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
